

Spring 2 in Falcons

After our February half term holiday, we came back full of excitement as it was World Book Day. We all had a fantastic day dressing up as our favourite book characters, taking part in a BBC live lesson and sharing our books with Robin's class. We all had an opportunity to take part in some shared reading which was a lot of fun.

For the second half of the spring term, we have continued learning about 'The World Around Us' in our topic. We got a chance to plan a route around Disney Land Florida, unfortunately Miss Smith would not give us the school credit card but never mind. We also got to learn about earthquakes and volcanoes and take part in an explosive experiment which had as erupting with excitement.

In English, we have been learning about persuasive writing using our book 'A Walk in London' we each created a holiday brochure to visit London. We really enjoyed our lessons because at times we got to act as tour guides and pretend we were showing people around the city. We also learned a lot about our great capital, and it even persuaded one or two of us to go there on our Easter Holidays.

In RE we have been learning about the season of Lent. Jesus spent 40 days and 40 nights in the desert. WE all thought about what we needed to do to be good Catholics in the season of Lent and made good Lenten promises which we tried to stick to. As part of our journey with Christ we took part in a school event where we each followed the stations of the cross. At each station we stopped and reflected on how Jesus must have felt when he was sentenced to death.

In science we have been learning about animals and their habitats. Part of our scientific enquiry skills have been to sort and classify animals and creatures into groups. We have done a lot of group work and even been on a mini beast hunt in the school grounds. This involved classifying different bugs into invertebrates. This topic was really interesting because we got to do lots of research and presentations on animals and creatures that we'd never heard of.

In maths this half term we have started learning about Measure. We have had a go at measuring lots of different items in the classroom in mm, cm and m. We were able to convert between all 3 by the end of our unit. At this time of year we are still working hard on learning our times tables and carrying on using TT rockstars.

We have had a lot of fun this half term which has included planting 130 trees in our school grounds. We can't wait for next term when we will be learning about the Tudors and going swimming!!

Happy Easter
