

Autumn 2 in Robins

Robin class took part in a KNEX workshop to create a model of a recycling machine. Each team had to build a machine and then explain all its features to each other. We then had a winning team that have been entered into the county final.

Children in Need was a huge success. The children were able to wear non Uniform and then took part in a party afternoon.

Christmas Jumper Day was only one of the many Christmas activities we took part in.

As part of our topic learning about the Mayans we were able to sample a range of foods that the Mayans would have eaten. Salsa was very popular whereas avocado was really disliked.
