

Autumn Term 1

FALCONS

For this half term we have been really lucky to have Miss Smith teach us Music and Spanish. In music we had a visitor who came in and taught us how to use and play the drums. We have also explored how we can use music to help us in our art work by listening carefully to the music and drawing what we can hear.

In Spanish we have had lots of fun making conversation with one another. We have learnt how to greet people at different times of the day and say some things about ourselves to each other.

In P.E we have learnt how to use the five basic shapes in gymnastics, which include the pike, dish and star. We used these shapes to explore and then sequence different movements and balances.
